FCST-CR120-ERS45-CVR 45° Outward Bend Cover

The 45° outer bend cover is a protective panel designed specifically for the 45° outer bend raceway section. It serves to cover the cable run at outward-turning horizontal sections, ensuring the enclosure and physical protection of the raceway at these bends, while maintaining an orderly and aesthetically pleasing layout for the server room's peripheral cabling system.

- Inward turn; space optimization.
- Precision curvature for a snug fit.
- Compliant with the UL94-V0 fire safety standard.
- Cover for 120mm fiber optic channel 45° outward bend.

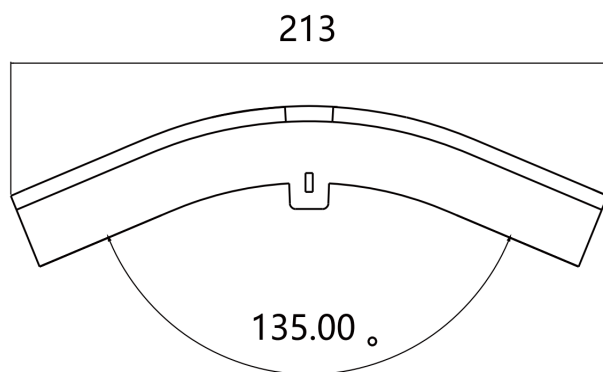

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	175PCS/CNT 14KG
Weight	80g

Product Structure

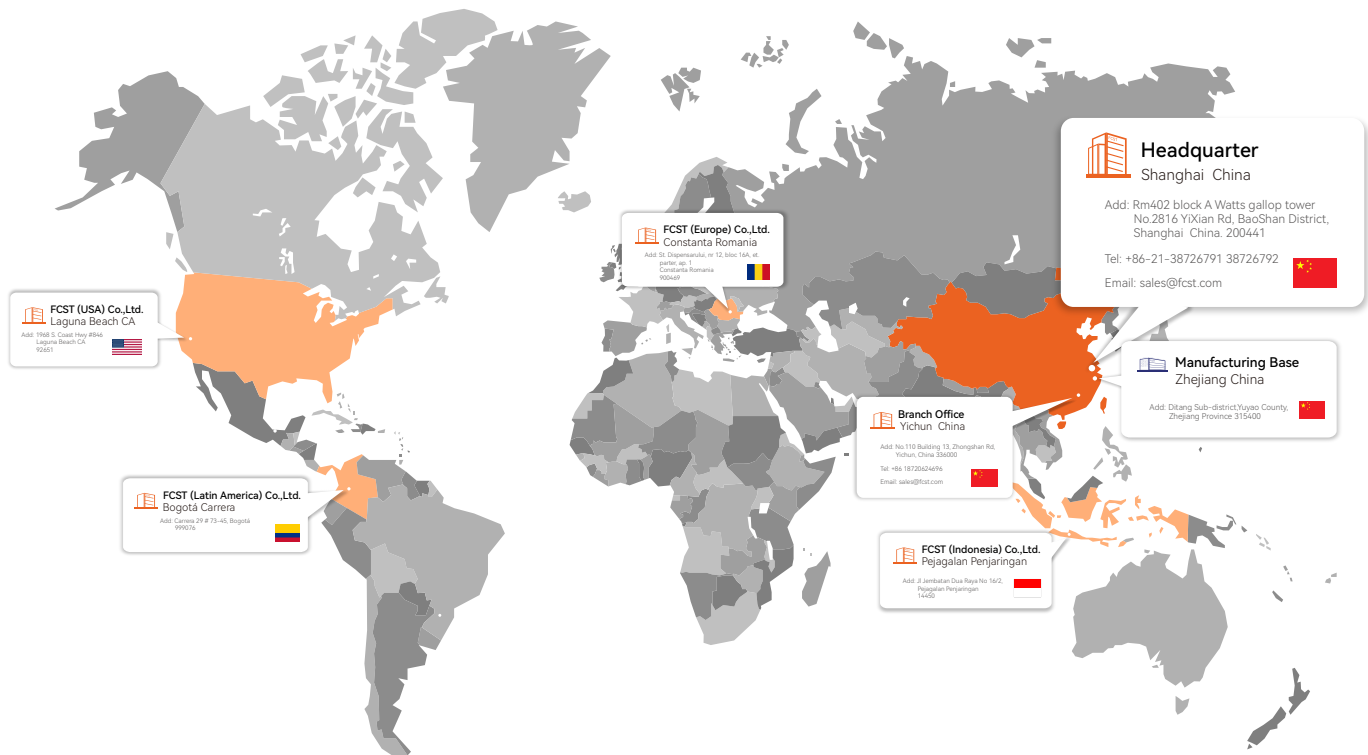

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
